SAW PARENTS FIGHT.

Son and Daughter Take Sides and a Family Is Divided.

Ottawa, Kan., Dec. 2.—Daughter against father and son against mother, the Tawney family is divided over the scene of the tragedy on the road near Rantoul when Bert Tawney cut his throat with a razor and his wife received, either at his hands or her own, a bullet wound from a pistol found afterwards in the Tawney barn. The 13-year-old daughter, Pearl, supports her mother in saying her father did the shooting. She took her mother to her grandmother's farm, ten miles away, after the shooting. The son, Arthur, 14 years old, says the mother had the gun and shot herself, supporting his father's story. He stayed with his father at the scene of the shooting, and later took him home.

With eyes red from weeping and loss of sleep, Pearl Tawney was brought, in charge of Sheriff W. P. Latimer, to this county from Rantoul.

"Mother and dad had been quarreling," said Pearl Tawney in the office of County Attorney W. B. Pleasant, while a stenographer took down her words and the other official watched her closely. "Mother started to leave the house and go to grandma's in Rantoul. Dad refused to hitch up for her. When she started, dad followed her about a quarter of a mile down the road. We children walked at a distance behind them. Suddenly dad stopped and yelled at her. Then he shot and mother fell." The tears were welling into the little girl's eyes and she stopped to have a crying spell. The first cartridge, she said, snapped, but the second went off, the bullet striking Mrs. Tawney. He then turned the weapon on himself, but it only snapped. With that he drew the razor and whipped it across his throat.

"We were so scared we ran back to the house. When everything was quiet again out doors we got the horse and buggy and drove out of the yard in the direction dad and mother had started. When we got to the top of the hill,

we saw them lying in the road with blood all around them. I was so excited I did not know what I was doing. I took mother into the buggy and drove her to Rantoul as fast as we dared. There was blood all over her waist and she fainted three times on the way to town. Pearl Stewart and I took turns driving and holding mother."

"I have not seen dad since we left him lying on the road. Arthur stayed with him and refused to come with mother." After the girls had gone, Tawney picked himself up, and walked to the house, bleeding profusely. He was met by his 14-year-old son who, leaving his father in the house, drove three miles to his grandfather's home and brought him for aid. Tawney says little, but insists that his wife shot herself. He acknowledges that he cut his throat in an attempt to take his life.

The quarrel resulted from the announcement of Mrs. Tawney that she would not live with him. She sued him for a divorce in the summer, but the suit was dismissed shortly after.

WANTS TO COME HOME.

Ambassador Wilson Asks Leave of Absence From His Post.

Washington, Dec. 2.—Henry Lane Wilson, United States ambassador to Mexico City, has applied to the state department for leave of absence from his post. This is interpreted by officials here as indicative of the ambassador's conviction that conditions in Mexico are approaching a normal state. The department has not yet granted Mr. Wilson's request for leave, preferring to defer action upon it until the atmosphere in Mexico has completely cleared.

No word has been received at the state department in regard to reports of dissatisfaction of Consul Luther E. Ellsworth with his post at Ciudad Porfirio Diaz. Ambassador Wilson has not communicated with the department in regard to the matter.

SUIT OVER LAND.

Topeka and Dover Farmers in Contest for Oklahoma Property.

An important suit over a land deal is being tried out before a jury in the district court today. George Hampe of Topeka had contracted to trade 1½ acres of the south of the Shawnee creek and valued at \$18,040 to Aaron Sage, a farmer of Dover, for 760 acres in Pottawatomie county, Oklahoma, valued at \$15,200. Mortgages balanced the equity.

Sage refused to deliver his Oklahoma tract and the suit follows. Hampe is asking judgment for \$12,040, less a \$2,000 mortgage, and for \$3,800 damages for the deprivation of the use of the Oklahoma land.

D. E. BARNES IS DEAD.

Carpenter Broke His Leg When He Fell From Building Recently.

D. E. Barnes, 49 years old, the carpenter whose leg was broken when he fell two stories from a building at Thirteenth street and Western avenue, about one month ago, died at Christ's hospital Thursday afternoon suddenly while conversing with his wife. He was preparing to go home and was on the road to recovery. Heart failure caused his death.

The funeral will be held from the home, 104 Hawthorne street, at 2:30 o'clock Saturday afternoon. Burial in Topeka cemetery.

HE TRUSTS THE PEOPLE.

Life Young Willing to Leave Choice of Senator to Primary.

Des Moines, Dec. 2.—United States Senator Lafayette Young, in an interview today, stated his willingness to leave the selection of a successor to fill out the unexpired term of the late Senator to deliver to a special primary to be called in January or February.

DEATHS AND FUNERALS.

The funeral of Harry Stark, who killed himself last night, was held from Shellsberger's undertaking rooms at 4 o'clock this afternoon. The body was taken to Muscatine Iowa, for burial.

The funeral of Mamie Dessain, who died November 21, was held from Penwell's undertaking rooms at 1:30 o'clock this afternoon. Burial in Mt. Hope cemetery.

NEW CORPORATION LAW.

Kansas May Have One Modeled After Ohio Statute.

There has been some talk of asking the next legislature to enact a new corporation law on the ground that the present law is inadequate and inefficient in its control of foreign corporations. A pattern after the Ohio law has been suggested. The Ohio law was passed in 1902 and has proved a success. The state collections from corporations under this law the first year of its operation amounted to \$790,316. Last year the collections totaled \$1,516,542.

The Ohio law provides for initial fees upon the admission of a corporation and then annual fees thereafter. Under its provisions the corporations securing charters in the state last year paid \$20,835 initial fees and \$1,199,666 annual fees were collected from all corporations doing business in the state. Ohio also collected \$24,184 last year from makers and retailers and owners of automobiles.

With over a million and a half collected from sale of franchises, etc., the state has a fine sum on hand to pay state expenses without calling on the counties to support it from local taxes.

John Dawson, attorney for the railroad board, stopped off at Columbus this week on his return from the rate hearing at Washington, and secured the above figures. Mr. Dawson declares that many of the eastern states collect enough money from franchisees and manufacturers in the way of fees to run their state government. In New York the state government asks the counties for nothing to contribute toward its expenses, but rather often helps the counties. In Kansas all the counties contribute to the bulk of the support of running the state. The counties pay from \$5,000 annually in the case of the little western counties to \$100,000 in the case of the larger and more wealthy counties to the support of the state in the shape of state taxes. One-half or all this would be unnecessary in the event that a proper and effective corporation and state fees law is passed and enforced.

TOTAL ON DEC. 10.

Population of the United States Is Estimated at 91,000,000.

Washington, Dec. 2.—The total population of the United States as reported by the thirteenth census is expected to be announced by the census bureau on December 10. Counting Arizona and New Mexico as states the totals of 28 out of the 48 states already have been announced.

The grand total for 26 of these states is 80,928,759, which is a gain of 1,000,000 in the same states in 1900. At this rate of increase the total population of the country should be about 91,000,000. The most striking development of the census so far as shown is the relative growth of cities and industrial centers as compared with the farming regions. The eastern states have more than held their own while the states of the middle west have fallen off.

"Spec" Hurlburt Sued. Suit against G. G. ("Spec") Hurlburt was filed in the court of Topeka today by Daniger Brothers of Kansas City claiming \$17 for goods, wares and merchandise to the extent of 15 quarts.

A Few Important Words on Shoe Fitting

(NO MATTER WHERE YOU TRADE)

PROPER FITTING is the most important thing about your shoe buying.

"A good fit" becomes more important every minute after your purchase.

There is only one way to secure proper shoe-fitting:

FIRST—Buy from a **COMPETENT** salesman—then let him give you the full benefit of his trained judgment. If you do not permit this, even the most expert fitter cannot do justice to your feet (or to himself.)

In brief, the best and sincerest counsel to all shoe buyers to trade in a store which you believe is broad enough in its policies, and wise enough in their application, to want you to buy the Shoes best adapted to You—and then accept the skilled and scrupulous advice of their fitting staff.

Do not allow any one else to select your **STYLE** of footwear—you are the supreme judge of correct fashion and appropriate usage.

But DO take the fullest advantage of the **FITTING SKILL** of the right class of attendants.

This will prove to be an investment—in comfort, in appearance, and in actual shoe value—no matter where you trade.
